HOMEGWARE & TRAVELS

The recently created ARTESANOS homeware and travel line, inspired by Coqui Coqui's lifestyle, showcases accessories and foldable furniture for the home, as well as pieces in suede for heritage travellers and family adventures.

The collection was produced with 100% Mexican fibres and materials such as: pure cotton, sansevieria, suede and wood to celebrate a primitive luxurious way of living and travelling. Each product was created from the beautiful Mexican traditional culture which involves the Mayan believes, the Franciscan colonial style, the remains of the European vibe, as well as the minimalism from modern society - to fulfil the needs and requests of our guests and visitors.

This concept was born thanks to the talks and thoughts with friends, guests and clients who have experienced and appreciated Coqui Coqui at the beach, in the jungle, walking through colonial little streets, and in the eclectic vibe of the decadent Yucatán's capital.

NATURAL FIBERS

The Hamacas are one of the most significant pieces from the Yucatecan culture: re-inventing the concept of relaxing, in a beautiful natural way, creating Hamacas made of Sansevieria with long fringes.

Sansevieria is a plant used by only few remaining artisans who still know and value the technique of making threads from its leaves. Its fiber is strong and durable, becoming softer and more luminous using it in your daily life. They are produced in a variety of colours going from Black, Chocolate brown, and Sand beige to the Green-Blue colours of the sea.

LEATHERS

For the great interest in unique heritage pieces from our guests and friends, we imagined and created a travels & adventures gamuza (suede) line, which includes extra-large travel bags, totes, sports bags as well as 48h-business-trip bag; combined with their passport and personal values holders.

Handmade in Valladolid, each product is a combination between style and comfort, as well as being very easy-to-wear, at the beach, in a jungle exploration, for a shopping day in the city or for a ride to any beautiful destination.

Following this path, we integrated a few portable and folding furniture pieces entirely made in suede and wood: a folding deck chair with its footstool, a folding explorer chair, and lastly a luggage rack.

OUR COLLECTION

CLIENTELE

The Coqui Artesanos customer identifies with an elegant, timeless sense of style, and as such the label is proud to boast an expansive clientele-list with no pre-determined demographic.

Recognisable examples of the Coqui Artesanos customer include, however:

Carolyn Murphy, Orlando Bloom , Michelle Pfeiffer, Olivia Wilde, Kate Bosworth, Reese Witherspoon, Riccardo Tisci, Mariacarla Boscono, Anja Rubik, Sienna Miller, Demi Moore, Drew Barrymore, Kylie Minogue, Mary Kate Olsen, Winona Ryder, Miranda Kerr etc..
